PCR Stripping Product

Europe's Number One Concrete Remover

High-performance concrete and cement residue remover effectively removes concrete, cement, hydraulic limes, anhydrite, plasters, and other residues. Safer alternative to acid-based cleaners.

L&S CHEMICALS

Key Features

- Biodegradable
- Powerful stripping action
- Safe for all substrates (metals, glass, rubber, paints, etc.)
- Non-flammable
- Does not damage application equipment

Product Description

PCR is a next-generation stripping product designed to meet the latest environmental and safety regulations while delivering high-performance cleaning capabilities.

- Effectively removes concrete, cement, and associated residues.
- Suitable for use on hydraulic limes, anhydrite, plasters, and other powdered materials.
- Significantly less aggressive than traditional citric, hydrochloric, and phosphoric acid-based products.
- Provides a safer alternative for users without compromising effectiveness.
- Designed to meet professional requirements for efficiency, safety, and environmental responsibility.

Advantages and Characteristics

- Biodegradable and environmentally responsible.
- Highly effective at stripping concrete and cement residues.
- Compatible with a wide range of surfaces without causing damage.
- Non-flammable for increased safety.
- Preserves and protects application equipment.

Technical Data

Liquid: Physical state at 20 °C
Colour: Pale Yellow
Odour: Slight
pH: 1.5 ± 0.5
Relative density: 1.06± 0.02
Solubility in water [vol/vol]: Total
Flashpoint [°C]: Not applicable

Environmentally Friendly

- Free from hydrochloric, phosphoric, and sulphuric acids.
- VOC content < 1 g/L*
- More than 100% biodegradable within 28 days*
- Free from CMR substances (Carcinogenic, Mutagenic, or Toxic for Reproduction), including methoxyacetic acid.

Application Instructions

- Apply using a low-pressure sprayer.
- Ensure the affected area is fully covered with the first application. Leave for 30 minutes to allow penetration.
- Apply a second application and leave overnight.
- Wash clean with water the following morning.

Health and Safety

Breathing protection: No respiratory equipment required under normal use with adequate ventilation.

Hand protection: Wear rubber gloves.

Skin protection: Wear protective clothing over exposed areas of skin.

Eye protection: Wear protective goggles.

In case of ingestion: Do not induce vomiting. Seek medical advice immediately.

For professional use only.

Storage

Store in a dry environment at temperatures between 5°C and 30°C.

Shelf life: 12 months from the date of manufacture when kept in the original, unopened container.
